Industrial Tie Rod End Attachment 93740623 Of Car Steering System

Our Product Introduction

For more products please visit us on automobile-sparepart.com

Basic Information

- Place of Origin: CHINA
- Brand Name: NABO
- Certification: TS16949
- Model Number: 93740623
- Minimum Order Quantity: 100 SETS
- Price: \$2.57~3.57
- Packaging Details: poly bag or air bubble bag, any boxes with customers' label, Corrugated box, Standard tray
- Delivery Time: 3~30 work days
- Payment Terms: D/P, L/C, T/T
- Supply Ability: 50000 pcs per month

Product Specification

- Product Name: Tie Rod End Attachment
- Car Make: For Hyundai Kia
- Warranty: 12 Months
- Quality: 100% Tested
- Packing: Poly Bag With Carton, After Pallet
- Application: Automobile Industrial
- Highlight: **Industrial Tie Rod End, Tie Rod End Attachment, 93740623**

Product Description

93740623 Tie Rod End Fit For SONATA Optima

Product Description:

A tie rod end is an essential part of a car's steering system. It is placed at the parts furthest from the center of the tie rod, linking the steering mechanism to the steering knuckle or spindle. The tie rod end has substantial influence on steering and stability; thus, providing comfortable and delicate steering.

Features:

Superior Construction and Precise Steering Control

Our tie rod end is constructed using high-quality materials, such as forged or cast steel, to withstand the demands of daily driving. It is built to resist wear, impact, and corrosion, ensuring long-lasting durability. The tie rod end connects the steering linkage to the steering knuckle, translating the driver's input into smooth and precise steering movements. With its accurate design and tight ball joint or bushing mechanism, our tie rod end provides optimal steering control and responsiveness.

Ball Joint or Bushing Design

Depending on the vehicle's specifications, our tie rod end is available in either a ball joint or bushing design. Ball joint tie rod ends allow for articulation and rotational movement, while bushing-style tie rod ends offer flexibility and vibration dampening.

Easy Installation

Our tie rod end is designed for hassle-free installation. It comes with all the necessary hardware and instructions, making it convenient for both professional mechanics and DIY enthusiasts.

Support and Services:

Tie Rod End Technical Support and Services

We offer comprehensive technical support and services for our Tie Rod End products. We have a team of experienced technicians who are available to diagnose and troubleshoot any issues you may encounter with your Tie Rod End. We also provide regular maintenance and inspection services to ensure your product is functioning properly and safely. In addition, we offer a full range of custom-made parts and accessories to further enhance your Tie Rod End's performance.

If you have any questions or concerns regarding the installation, operation, maintenance, or repair of your Tie Rod End, our experienced technical support team is available to provide you with the answers you need. We are committed to providing the highest level of service to all of our customers.
